		<p>school year for next year. We are continuing SPSA from last year (submitted an addendum). Same 4 goal areas - ELA, Math, Social and Emotional Learning, Social Justice.</p> <ul style="list-style-type: none"><li>● SPSA starts with Academic Needs Assessment. Have not had statewide data for 2 years (SBAC). 2 year old data shows that our student population does really well (on average students 78.9% above standard). However, had a decline from blue to green overall recently, but especially in student subgroups. Why we are targeted ELA and Math.</li><li>● For Social and Emotional needs we use data from our SEL Needs Assessment. Areas to Target - making mistakes in school, raising hand, enjoy going to school, feeling respect from peers.</li><li>● ELA goal - students receiving appropriate intervention supports to meet mastery of grade level critical standards.</li><li>● Funding standards to meet ELA goal:</li><li>● Grade level PLC meetings during the school day (PE PLC), additional personnel (bulk of money spent on aides), Staff Development, SMART</li></ul>

		<p>Team Planning and release time, PLC Facilitator Coaches, and Parent Education and Outreach.</p> <ul style="list-style-type: none"> <li>● Goal 2 - Math: all students receive appropriate intervention to meet critical math standards. Similar funding standards for ELA and Math.</li> <li>● Goal 3 - Social and Emotional Learning: Provide students with SEL instruction and support students with appropriate skills and intervene when appropriate to make students feel like school is a safe place to grow and learn.</li> <li>● Goal 3 supports: Elementary resource counselor support 5 days a week!!</li> <li>● Goal 4 - Social Justice: Students will treat each other with respect and take action when others are being excluded or mistreated. Supports include Staff Development and parent engagement.</li> <li>● How does our SG data in declines compare to district data in declines?</li> </ul>
